Please allow me to introduce myself, and my company. I'm Tom Easley, the owner of Audio Visual Arts the newest state of the art recording studio and pro audio sound contractor in the central Mississippi area. I say new but we're anything but new. I've been making music since 1975 as a recording engineer, systems designer and audio contractor all over the United States. The extensive experience and knowledge I have gained has positioned me to use that experience and knowledge for you.

Presonus, JBL, Warm Audio, Universal Audio, Soundcraft, and Gator cases are a sampling of my dealerships. With these products we are able to design and build sound systems, from small Theaters to Night Clubs, Hotel and Casino event halls to Houses of Worship. We can build and install audio and visual systems ranging from one microphone and no camera, to one hundred microphones and sixteen cameras, with podcast and live streaming capabilities.

We also have a complete 64 track, 64 input remote recording studio that can come to your location, or you can record your next session here at our studio in Raymond, MS. We offer sound reinforcement and backline equipment to include drums, keyboards guitars, bass rigs. **AVA Entertainment** has you covered - from small intimate settings to events up to 500 seats, either as a stand-alone P.A. system or in conjunction with our remote studio.

Only in operation for a few years, the studio has already enjoyed chart topping success all around the world. We have a roster of the best studio musicians in the south that have worked on countless hit records for top artists and studios such Muscle Shoals Sound, MALACO Records and Fame. I, personally, was an engineer at MALACO Records 1984-1990 (further references and credentials upon request).

Whether your company or organization needs production and/or equipment for a zoom meeting, a conference meeting or podcast system, we are the one-stop-toy-shop for all of your audio needs.

Mississippi has produced some of the world's finest performing Artist Song Writers and Musicians. It's the BIRTHPLACE of AMERICA'S MUSIC.

Let's keep Mississippi dollars in Mississippi...
