---

We specialize in hot meals and craft services. Our goal is to keep the cast and crew satisfied and refreshed in all circumstances. We have experience and knowledge in the movie and catering business and pride ourselves on working with budgets and offering southern hospitality.

Our experience has led us to the basic knowledge that a well-fed and hydrated crew works harder and is happier. A movie set is not an ordinary place and deserves as much comfort as home.

We are experienced in providing healthy choices for dietary restrictions and individual food preferences – and we never forget homemade is always better.

My team and I have been blessed to be in the cake business for six years and have been catering for three years. We take pride in what we do and are excited about the movie industry expansion of our business.

*We have one main objective – to keep the cast and crew happy with smiles and a great love for our fellow man.*

**2013 - *Big Significant Things***

**2013 - Sanderson Farms commercial**

**2013 - *The Sound and the Fury***

**2014 - *The Hollars***

**2014- *Life at These Speeds***
